Kimmo OctaBin

Ideal for any product that lacks structural integrity.

Ideal for any product that lacks structural integrity.

The OctaBin is **great for stacking** and helps to mitigate the risk of bulging. It is widely used to transport seeds, minerals, liquids and cold chain applications like frozen berries or peas.

Kimmo OctaBin – A fully customisable solution

Customise the size

Set the OctaBin size to match your product and optimise your container.

Choose your Pallet

Choose between a Corrugated Pallet Base or a Regular Wooden Pallet.

Choose your Lid

Choose between a Single Wall folded Lid or a Honeycomb Fibreboard Lid.

Customise the Sleeve

Depending on your product weight and stacking requirements, we are able to recommend the ideal wall thickness required for the Sleeve.

Customise the Bottom

The Bottom is required to ensure that the shape of the OctaBin will always match your chosen Pallet. Choose between a Folded Lid, an integrated Folding Bottom, or a Honeycomb Fibreboard Bottom.

The Advantages of Kimmo OctaBin

ISPM-15 Exempt

Due to strict international regulations, OctaBins are one of the preferred future bulk transport packagings.

Strong and Durable

Our stackable packaging will save you floor space in your warehouse's outbound area. Can easily handle weight of up to 1,2 Tons.

Flat-Packed

The OctaBin can be flat-packed. This reduces inbound transportation costs and saves on inbound floor space in your warehouse.

Reduce Contamination Risk

Combined with customised aseptic bags and liners, the OctaBin will remove the risk of product contamination.

Customise Internal Volumes

The internal volumes of each unit can be customised to your requirements, which gives you an affordable way to transport pallet-loads' of smaller containers.

Reduce Wasted Space

The empty space usually found between drums can be reduced by using OctaBins which will make the shipment more compact and efficient.

An extremely versatile product. If you're wondering which Kimmo OctaBin configuration will work best for you, our **industrial packaging specialists can help you to find the ideal fit-for-purpose OctaBin solution.**

The OctaBin can be flat-packed to save warehouse floor space.
